

Prada

Age: 5 years

Sex: Female

Weight: 90 pounds

Breed: Doberman Pinscher

Personality

Prada is an easy, gentle Doberman. She's calm, affectionate, and happiest just being near her person. She doesn't need constant action - she's content to hang out, relax, and be part of your day.

She's social and friendly with people, and she gets along well with other dogs.

Lifestyle & Needs

Prada has a lower, more relaxed energy level for a Doberman, but she still needs regular movement to stay healthy. She enjoys playing fetch and will happily chase a ball - a great way to help her slim down. Short walks and some play time go a long way with her.

She's a great option for a first-time Doberman owner. She's soft, manageable, and not pushy, and does well with basic structure and consistency without being difficult to live with.

Ideal Home

Prada is a calm, easygoing Doberman who will do best in a home that keeps things simple, consistent, and low-drama.

A great match for her would be:

- A first-time Doberman owner
- Someone looking for a calm, low-drama companion
- A home that will keep her active and support weight loss
- No cats, or an experienced home willing to manage prey drive

Prada is simple in the best way - steady, affectionate, and easy to live with when her basic needs are met.
